

Mechanical Technician Intern

Toronto, Canada

Us

At SpaceRyde, we use balloons to launch satellites. Our work is literally rocket science and we are looking for creative people to join us. Watch videos of our flights on our website to see how we are building Canada's first space launch system for small satellites.

We love solving real problems in the simplest way, and want to work with people who Get. The Job. Done. We are backed by high-profile investors including YCombinator and work as fast-paced Silicon-Valley startups do.

You

You are a rockstar technician intern who is ready to solve problems and get things done. You are detail oriented and never satisfied with "good enough". You always make it happen when everything that's supposed to work, doesn't!

You are goal-oriented and prepared to take complete ownership of your project. If you are thinking of taking a day off before a deadline because it's your birthday, or anniversary, this is not the company for you.

Join us if you like to

Work on rockets and make history in Canada

Learn a lot at a very fast pace

Grow and advance in your career

Enjoy free breakfast, snacks, coffee, tea and employee appreciation events

Key Responsibilities

- Assemble and fabricate subsystems and components for SpaceRyde's rocket and its supporting equipment.
- Advise and support the engineering team on practical issues including material handling, logistics, and fabrication.
- Perform maintenance and light construction in-house and in the field.
- Work with your hands and problem solve to build the infrastructure that supports our launch vehicle development.

Requirements

- Enrolled in a program to earn a Diploma/ Certification.
- Minimum 6 months hands-on experience (internship/apprenticeship experience is accepted).
- Experience in fabrication, construction, manufacturing or handling.
- Competence with a wide range of hand and power tools.
- Machine shop, welding or electronics experience is a bonus.
- Excellent problem solving skills.
- Happy to go the extra mile to get things done right.
